

Commissioning Services

LIGHTNIN SALES & SERVICE

Support:

SPX FLOW Lightnin supports the job-site commissioning of your mixing equipment to ensure that the equipment is configured to Lightnin start-up specifications. The checks and measures performed by a certified Lightnin Technician ensure your mixer a trouble-free start-up.

Commissioning Services:

- Provide hands –on or supervisory assistance in configuring the equipment for start-up.
- Check power at the equipment.
- Test external bearing temperatures.
- Measure shaft run-out to ensure conformance to specifications.
- Visually inspect the equipment for any abnormalities that could jeopardize optimal equipment performance.
- Complete a comprehensive Lightnin Commissioning Checklist to confirm that all equipment specifications are met, and that all Lightnin recommended start-up procedures are completed

Why should your company use Lightnin Commissioning Services?

- Reduce down time
- Ensure problem-free start-up
- Reduce costly production losses
- Reduce parts inventory
- Reduce annual operating expenses
- Reduce total cost of ownership
