

Homogenizer Applications - Grease

PRODUCT HIGHLIGHTS

WHY SPX FLOW?

The APV Brand Homogenizers and High-Pressure Pumps, are the products of choice for grease applications. The expansive

model offering (up to 13,200 g/h (49,967 l/h) and 21,750 psi (1,500 bar)), the updated design with options for low-pressure homogenization, extensive instrumentation and monitoring, and the well-established network of local distributors with inventory and service support, all mean you will have decades of operation at a low cost of ownership. When it comes to know-how, experience and product range within the field of Homogenization and High-Pressure Pumps, you won't find a better business partner than SPX FLOW.

FEATURES

- Extensive model selection for flow requirements
- Typical pressure 3,500-10,000 psi (241-689 bar)
- Single stage valve with wear resistant components
- Optimized homogenizing valve for grease
- Abrasive resistant components

BENEFITS

- Uniform dispersion of ingredients
- Uniform crystal and gel structure
- Develop texture and appearance
