DRIVING SAFETY AND RELIABILITY

FLANGEPRO

Expedient, Efficient & Essential

**- the professional "affordable"
management system for every project!
Hardware and tools are available for sale or rental!**

FLANGEPRO "ON-Demand" Advantages

- Preconfigured for TAR projects enabling quick deployment

- "On-Demand" has a fixed weekly subscription that allows you to match project budget needs

- Affordable, Easy to install and simple to operate

- Ideal for smaller scale TAR projects (< 10 weeks)

- Easily convert your FBR spreadsheet into a flange integrity database

The Dashboard view including "real-time' status of systems, packages and project as a whole.

"On Demand" software

- FLANGEPRO's "ON-Demand" Software configuration package simplifies your Turnaround (TAR) project and allows you to automate many time consuming tasks, increasing productivity, and help to keep your project on-time, and on-budget.
- Eliminates pain-points associated with manual spreadsheet methods
- Seamless transition from project planning to project execution with integrated bolt load calculation engine that transfers important data automatically.
- Print Flange Tags directly from the program, allowing you to quickly link critical data to the tags automatically.
- Automatically create professional completion certificates and forms
- Enables process tracking in real-time, allowing you to see the flange status throughout the TAR project.
- Powerful filter tool allows filtering by flange type, gasket type, technician, bolt size, etc. Quickly allows project analysis for trouble areas allowing you to keep your project on track.
- Provides important KPI dashboard to monitor project progress and highlights tasks or areas that need attention and improves communication.

- Use SPX Adviser Program to Calculate Required Bolt Loads for Flange List

Create Flange List

- Print Flange Tag Labels
- Create Completion Certificates & Inspection Test Records
- Store Signed / Completed Forms

Record Activity

- Project Dashboard KPI's
- Visual Reporting

Produce Reports

- Produce Flange Break Register (FBR)
- Combine Paperwork for Handover

Create Handover Package
