

H-Series Mixers

GENERAL PURPOSE MIXERS

General Purpose Mixers for test, laboratory or for your production needs

The Lightnin HP & HE Series mixers continue to offer an affordable general purpose mixer suitable for many industrial applications. The design is simple, robust and easily maintained making it perfect production testing or for use in your 24/7 industrial applications. Thousands of units are in operation in diverse industries such as paint, chemical, food and beverage, personal care and pharmaceutical mixing applications.

Mixing versatility

The HP & HE Series mixers are suitable for production environments and as such offer many features as standard and options for your particular needs. The overall mass is less than 10kg (22lbs) making the HP unit easily repositionable and easily moved from tank to tank.

Lightnin HP shown with adjustable clamp mounting

Lightnin HE shown in a typical small vessel installation

Impellers by Lightnin

Using Lightnin A310 or A100 impellers in their true shape offers the ability to accurately scale-up from laboratory scale, pilot scale to production scale.

Lightnin A310, A100 and folding Impellers
