

Mix Proof Valves / Brewery

PRODUCT HIGHLIGHTS

WHY SPX FLOW?

Brewery processing has never been more challenging. Margins are being squeezed, food safety is paramount, and consumer demands for new products make formulation changes a regular occurrence. The SPX FLOW valve line helps you meet these challenges head on by providing a complete portfolio of valves (mix proof, single seat, manual and specialty) and flexible design (modular bodies and actuators). They are easy to maintain and provide a very low cost of ownership due in part to minimal proprietary spare parts. When it comes to know-how, experience and product range within the field of valves, you won't find a better business partner than SPX FLOW.

FEATURES

- Machined from bar stock bodies
- Unique non-porous Tef-Flow™ seat option
- Sanitary tube or schedule 5 pipe size
- Optional spill free designs
- Maintainable seat lift or non-seat lift actuators
- Large bearing surface area

BENEFITS

- Robust design and manufacture
- Long dependable life
- Easy to maintain
- Low cost of ownership
- 3-A cleanable design
- Long seat life without effecting taste
