

Mix Proof Valves / General Food

PRODUCT HIGHLIGHTS

WHY SPX FLOW?

Food and beverage processing has never been more challenging. Margins are being squeezed, food safety is paramount, and consumer demands for new products make formulation changes a regular occurrence. The SPX FLOW valve line helps you meet these challenges head on, by providing a flexible design (modular bodies and actuators). They are easy to maintain and provides a very low cost of ownership (minimal proprietary spare parts). When it comes to know-how, experience and product range within the field of valves, you won't find a better business partner than SPX FLOW.

FEATURES

- Full mix proof variants portfolio
